Anirban Pal – A seeker, learner...

- I am a versatile spirited person with a flair for all courses of fun, love and value-creation in life while enjoying the harmony with Nature and real-life connections.
- I have been an educator throughout – serving schools, colleges, universities and my Alma Mater through roles like Governing council, BoS member, Academic council member, Teacher, Guest faculty, FDP facilitator, etc.
- **By profession an Engineer, by occupation an Enterprise Architect, by service a Business Analyst/Agile Expert/Teacher/Application Developer/Open-source Contributor/Channel Writer/Spiritual guide/Scientific and Rational Reviewer and in person a Yoga Master.**
- I dilly-dally with all kinds of problem-solving opportunities. I have been blessed with extensive experience in design, architecting, developing and maintaining **large scale Enterprise solutions, educating the youth, enabling teams/people to deliver value better/faster and consult on global Fortune 500 engagements/programs/projects.**
- I continue serving in the Enterprise Development space adding AI and ML to my repertoire. I am learning AI/ML to contribute towards a) National and Global causes in analysing data, b) get a sound foundation of the mathematical background of ML, c) develop solutions (voluntary) for people and Non-profit organizations, including my own - to make the world a better place.
- **Certified as an IBM Cloud Architect, Microsoft ASAP Architect, AWS Architect, Agile Coach, Scrum Master and working on GCP and Azure certifications as well.**
- I am blessed to work with NGOs, through which I serve in teaching Yoga, Education and Awakening in society.
